WORK EXPERIENCE

Epic Infocus

JUL 2025 - PRESENT, MUMBAI

- UI/UX Designer – Full Time (Jul 2025 – Present)
- Led redesign of the [Client App, Staff App, and Management System](#), improving usability, workflow clarity, and visual consistency.
- Created new user flows and built a [scalable Design System](#) to ensure consistent and efficient [product experience](#) across platforms.
- Designed end-to-end workflows for key business modules, including [Booking Management, Event Management, Package Creation, Cart, Wallet & Payout Systems, Branch Management](#), and [Staff Operations](#).
- Integrated the [Management System](#) with newly designed workflows, ensuring smooth coordination.
- Owned the complete design process from requirement gathering and stakeholder discussions to [wireframing, prototyping, testing](#), and [developer handoff](#).
- Designed and implemented new feature flows, accelerating [product improvements](#) and reducing [design-to-development](#) gaps.

PROJECTS

Location Management – Enterprise Platform + Client App Integration

- Designed a connected [Location Management System](#) enabling seamless coordination between [admin](#) and [client platforms](#), ensuring accurate data synchronization across locations.
- Simplified multi-studio workflows with [intuitive navigation](#), scalable architecture, and automatic linking of reviews, bookings, and staff data.

Event Booking System – End-to-End Experience Design

- Redesigned the [end-to-end event booking and management system](#) to streamline multi-event workflows for [admins and clients](#), consolidating all sub-events under a single quotation.
- Built an integrated [Client App + Admin Dashboard](#) enabling synchronized workflows for quotation creation, booking confirmation, event coordination, and post-production management.

Support Tickets Management – (UI/UX Design & Workflow Architecture)

- Collaborated with [management, business stakeholders](#), and [developers](#) to gather requirements, understand business logic, and define user workflows.
- Created [user flows, wireframes](#), and [high-fidelity UI designs](#) for ticket creation, assignment, communication, tracking, and resolution workflows.
- Bridged the gap between [business requirements](#) and [technical implementation](#), ensuring a [seamless](#) and [user-friendly experience](#).
- Conducted [user journey mapping](#) and workflow analysis to design efficient and scalable ticket management processes.

EDUCATION

Diploma in Ui/Ux Design (2024 – 2025)

Edit Institute – Thane, India

Bachelors of Science In Information Technology (2021 – 2024)

Mulund College of Commerce (Autonomous)
– Mumbai, India

HSC – IDUBS Jr. College (2020 – 2021)

Maths / IT – Mumbai, India

SSC – Maharashtra (2018 – 2019)

Ideal High School – Mumbai, India

SKILLS

- User Research
- Interaction Design
- User Interface Design
- User Experience Design
- User Analytics
- Product Design
- Prototyping
- Wireframing
- Mobile Application
- Website Design
- HTML
- CSS
- JavaScript

TOOLS

CERTIFICATIONS

- Diploma in UI/UX Design, Edit Institute
- Web Designing & Office Automation
- UX design workshop from Growth School
- Communicational Skills – L1/L2 Cleared
- Python for Data Science
- DevOps Fundamentals
- Cloud Computing with Azure
- Robotic Process Automation
